

## That 80s Band - Stage Plot (front of house)

Drum kit is 5 pc - 2 up, 1 down. Minimal samples are used on select songs via DI from laptop. Board is rack mounted Behringer x32 and can sit stage left or right depending on layout. Two sub snakes are run from board with all labeled inputs. Players all use in ear systems which are mounted in rack. Each member can adjust his or her mix via x32 app on mobile device. Backdrop mounted on truss is positioned behind band with various props and lights. Two light trees are positioned in front/side of stage. Various stage props are used with minimal footprint. Fog machine and hazer are used to enhance lighting.
